

SEPTEMBER / OCTOBER NEWSLETTER

ISB
INTERNATIONAL SCHOOL BRESCIA

Friday 27th October 2023

PYP
AGENCY

Student Voice

Our PYP Student Representative Council members used their voice to try to make a change on a topic close to their heart.. food! In their spare time they conducted a survey and created a keynote presentation to convince Genesi to add Taco Tuesdays

Building for the future: Post-diploma and University Guidance

Our first Post-diploma and University Guidance multi-years programme has officially started! MYP 5 have had their first two guidance sessions, as part of the 'Know Yourself' section of the programme. They reflected on personal interests, strengths and skills and starting a strategy builder activity for their goals this year! Diploma students will be joining a university fair in November where they'll be able to meet and ask questions to representatives of numerous European and American universities. For more info on our guidance programme, click [here](#)!

Want to know more about our school results and university destinations? Check our website [here](#).

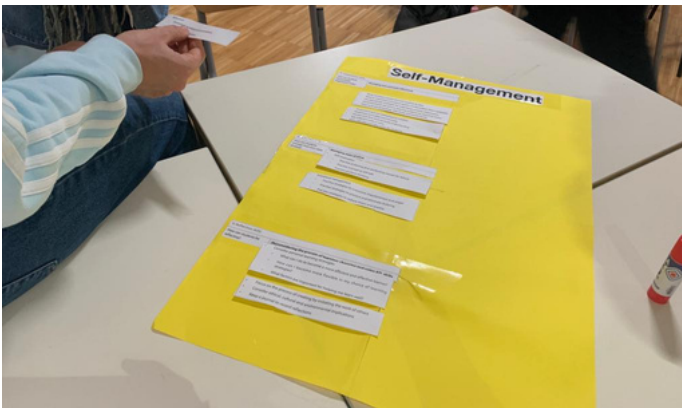

2023/4

The Learning Community

Throughout September and October our families have come into school for informative sessions on subjects such as Managebac, phonics, inquiry Maths, PYPX, Quinta Elementare Exam, PYP assessments, as well as introductions to the MYP and DP.

IB Programme Development Plan

IB
Evaluation
2024

ISB teachers have developed a Programme Development Plan for this year's school focus, on Approaches To Learning (ATLs). The school used evidence to choose which skill to focus on developing across the three programmes, and the result was Self-management Skills. Families and students will be hearing a lot about these skills over the year to come. We look forward to developing this Self-management Skills with you through activities and initiatives!

2023/4

Padernello

Our Grade 6 classes visited the medieval castle of Padernello to kickstart their second unit of inquiry. They will compare it with the castle in Brescia later in the unit.

Learning Trips

Hydrogen Energy Lab

DP students got insight into lab work in the field and learned more about the importance of renewable energy during a field trip to H2 Hydrogen Energy Lab.

Horse & Fruit

Grade 2 students visited a local organic farm as part of their Harvest festival celebrations for their first Unit of Inquiry.

ISB PC Garden Party

This year saw the first ever ISB Parents Committee Garden Party. Families, teachers and students came together in the stables for a Staff Vs Students football match, wooden games and a delicious international buffet!

Teambuilding

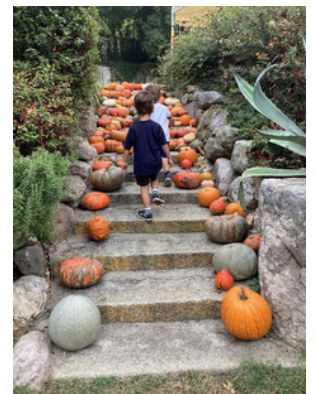

Our students have been on beginning of year field trips to promote Social Skills and develop teambuilding amongst classmates. For our older students that was throughout a day of challenging themselves and reaching new heights at New Rock climbing centre.

Social Skills

Our Lower PYP students visited Collina di Matilde and had a lovely time immersed in nature and learning about animals with their friends and teachers.

Our youngest students in Early Years 1 and 2 went to see and experiment with the Zucche del passeggero in Padenghe del Garda.

PYP Book Week 2023

Halloween at ISB

We finished off our first half term with Hallowe'en celebrations. Students could choose to wear fancy dress, participate in some spooky arts and activities and the day was rounded off with a Trunk or Treat organised by the Parents Committee.

Looking forward...
